

ULTRA LIGHT OPTICS™

The **SMALLEST** and **LIGHTEST** LED Headlight

www.ultralightoptics.com

Designed by dentists and ophthalmologists, Ultralight Optics™ knows exactly what we need in the dental profession. Ultralight Optics™ is the **original** LED headlight. We are the pioneers of the very first lightweight headlight in the industry and is the leader by far in both weight and size. Winner of the *Dental Townie Choice Award*, *Dental Advisor*, and *Reality Choice Award*, we are the highest recommended LED headlight by all professions in the industry.

The revolutionary optical design and use of aircraft-grade aluminum alloy allows Feather Light® to be the most optically efficient. Such construction constitutes Feather Light® the only technologically advanced headlight to deliver an intense beam of light while providing unsurpassed comfort.

Distinguishing Features that set us apart

- Feather Light® is guaranteed the leader in weight (2g, or 0.05oz) and size.
- The smallest Ultralight™ LED loupe-light is designed not to block your vision
- High capacity advanced lithium-ion battery pack gives you the longest lasting battery pack with up to 8 hours of consistent brightness on the highest setting. Go an entire day on one charge!
- The only LED loupe-light that is even smaller and lighter than most fiber optic loupe-lights
- Durability is proven in our lifetime warranty
